

note-compiler (set tabcount on span and repeat it on cursor reset?)

A simple Markdown compiler, **PDF spec subset**

Markdown / Obsidian format spec references at some point

- Refactor the renderer
- ~Word-wrapping~
- Italic underscore, don't skip
- Margins, buffer changes in body nodes and spans
- ~**non-ASCII**~
- ~Bolded, italic text~
- CMake
- compile_commands.json
- .h files -> compilation units, linking
